New Data from National Sources

Every year, the EPDC surveys all national statistical and ministry of education websites for new education statistics. We have just finished our 2008 round and have uploaded new national data for 50 countries. This year, we added data on national exam results and vocational school enrolment. Other data include enrolment rates, numbers of pupils teachers and schools, progression rates, and some financial data.

2007 education data (including much sub-national data) is available for 15 countries, namely:

- Azerbaijan
- Costa Rica
- The Gambia
- Mauritius
- Mexico
- Philippines
- Serbia
- South Africa
- Tajikistan
- Tanzania
- Tunisia
- Turkey
- Uganda
- Uruguay
- Vietnam
