

## Trans-Nzoia Kenya District Primary Education Profile

Kenya District Education profiles are intended to give an overview of the education sector in Kenya's districts, highlighting enrollment, efficiency, and resources for pupils. In addition to providing an understanding of the district, the profiles can be used to identify particular districts or schools which have unusually good or bad performance.

EPDC Kenya District Profile for Trans-Nzoia created March 2007

### Trans-Nzoia Enrolment Pyramid for Primary and Secondary Grades

The grade pyramid shows the number of pupils by grade. Tapering of the pyramid (a wide base and a narrow tip) can be caused by high dropout, high population growth, or by recent growth in school entry rates. The primary grades shown are solid colored and the secondary grades shown are patterned.

## KCPE Exam Scores in Trans-Nzoia District

Average Aggregate Exam Scores Compared to National Scores

SOURCE: KNEC 2001 - 2005

2005 Average Exam Scores

## Efficiency -- Repetition and Drop-out Rates by Grade in Trans-Nzoia District

Repetition, drop-out and gender imbalance are all indications of a greater use of resources.

Repetition

Source for repetition: EMIS 2005; Source for drop-out: EMIS 2005

Drop-out Rates\*

\* includes very small numbers of pupils who die

## Over-age Attendance in Trans-Nzoia District

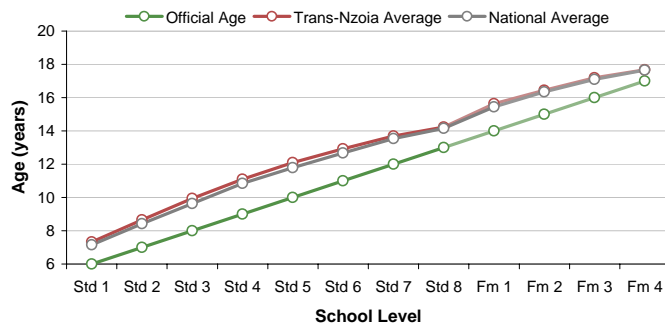

Over-age attendance may be associated with higher repetition and dropout. The graph shows pupils by age in each grade - many of them over-age. The average age in grade table summarizes the extent of over-age attendance. In a completely efficient system, the average age difference between each grade is one year; larger differentials suggest repetition; smaller differentials suggest over-age attendance is increasing over time.

Standard 1 Entrants by Age
